Professional Summary

Motivational and adaptable Computer Science and Engineering student with strong expertise in Machine Learning, Data Analysis, and Agile Software Development. Delivered AI-based solutions in healthcare and agriculture, supported by a filed patent and national-level achievements. Skilled in Python, C, and major data science tools, with hands-on experience from internships at Infosys Springboard, Olcademy. Proven ability to lead teams, analyze complex problems, and build reliable, real-world software systems.

Education

Amrita Vishwa Vidyapeetham

Bachelor of Technology, Computer Science and Engineering – Core

Chennai, India

2022–2026

Work Experience

Olcademy

Software Quality Assurance Engineer - Intern

Remote

Apr 2025 – Oct 2025

- Performed functional, UI, and regression testing on a Zomato-like food and event booking platform to ensure usability, correctness, and performance.
- Executed 200+ structured test cases and validated key application functions, resulting in improved software reliability.
- Identified, logged, and tracked 500+ bugs, working closely with developers to ensure timely fixes and improved platform stability.

Infosys Springboard

Software Development Engineer - Intern (Team Lead)

Remote

Nov 2024 – Jan 2025

- Led the development of the “Financial Planning Hub,” a Streamlit-powered platform used by more than 15 financial advisors for portfolio forecasting.
- Implemented secure authentication using Firebase and integrated Twilio-based SMS alerts with a 99.8% success rate.
- Automated financial report generation workflows, reducing manual processing time by 45% and increasing overall accuracy.

Technical Projects

AI-Powered Diabetes Prediction System: Developed a diabetes risk prediction tool using Logistic Regression (95% accuracy) and deployed via a Flask backend for real-time risk analysis.

SANA – Personalized Text-to-Speech (TTS) System: Built a multi-language TTS system preserving voice characteristics using Deep Learning and NLP models; deployed via Streamlit.

Full-Stack eCommerce Application: Created a responsive eCommerce platform with secure authentication, dynamic cart management, product catalog features, and real-time order updates.

Medical Chatbot (RAG): Developed a medical chatbot using LangChain RetrievalQA and CTransformers; processed 5,000+ queries with 92% accuracy.

COVID-19 Global Data Analysis: Analyzed large-scale pandemic datasets using Pandas, Matplotlib, and Seaborn to visualize infection, recovery, and mortality trends.

Research and Publications

Classification of Breast Cancer Risk Levels: Designed a multi-class ML model using SVM and XGBoost achieving 97% accuracy on the Metabric dataset. Published at DELCON 2025 Conference.

Deep Learning for Red Palm Weevil Detection: Built a dual-modal detection system combining YOLOv11 (96% accuracy) and a CNN for acoustic detection (97% accuracy). Published at DELCON 2025 Conference.

Patent

IoT-Based Early Detection of Red Palm Weevil: Filed a patent for an intelligent agricultural system using acoustic and visual sensors, cloud integration, and a mobile app for real-time pest alerts.

Technical Skills

Programming Languages: Python, C, HTML, CSS, Java

Databases: MySQL, MongoDB

Tools & Technologies: Power BI, Microsoft Excel, Django, Flask, Streamlit

Core Competencies: Machine Learning, Data Analysis and Visualization, Software Development, AI for Healthcare and Agriculture, Research Documentation, Public Speaking

Languages: Tamil, English

Certifications

- **Coursera (IBM):** Python for Data Science
- **Scaler Academy:** Data Science Fundamentals, Cloud Computing
- **Oracle:** Machine Learning with Autonomous Database

Achievements, Volunteering & Extracurricular Activities

Second Runner-Up, Tantrotsav Ideathon: Recognized for "CelebEd," an AI-based educational concept using celebrity voice synthesis.

HackerRank Bronze Badge: Earned by solving 150+ coding and algorithm challenges.

Club Contributions: Active member of GDSC, Cognizance, and AMC FOSS Club; assisted in organizing major technical and cultural events.

Extracurricular Activities: Basketball player with strong teamwork and discipline; involved in dance, mimicry, skits, debates, event management, and multiple seva (community service) programs.
